Project Cost and Incentive Check

Check your incentives and project costs before the review

A regular consistency check for payroll, R&D/technopark incentives, projects and cost centres.

Highlights

Payroll consistency

Accrual vs ledger, insured days, cumulative tax base, exemptions and leaver checks.

R&D and technopark incentives

40 × minimum-wage cap, support-staff ratio, active project link and social-security support rules.

Projects and cost centres

Warnings for costs without a project code and mixed incentivised/non-incentivised expenses.

Payroll checks

B01-B12: consistency of staff, days, wages and incentive items between payroll and project records.

THE PROBLEM

What goes wrong in a review?

- R&D staff time looks different in payroll and project records.
- Support-staff ratio and incentive cap are not tracked month by month.
- Mismatches surface only during a review or audit.

THE SOLUTION

What does the check do?

- Runs payroll (B01–B12) and R&D (A01–A10) checks on Logo records every month.
- Compares project and cost-centre allocation with payroll.
- Warns you before legal caps and ratios are reached.

WHY IT IS DIFFERENT

The difference

- Read-only; it never writes to Logo.
- Findings come with evidence rows; corrections stay with you.
- It is not a tax opinion; it makes review preparation easier.

Frequently asked questions

Is it available now?

Coming soon. Leave a pre-registration and we will invite you to the pilot first.

Does it replace a tax adviser's opinion?

No. The checks find inconsistencies in your records; the assessment and opinion belong to your adviser.

Does it write to Logo?

No. It only reads payroll and accounting records; data never leaves your server.

How much does it cost?

Pricing will be set after the pilot. Pre-register or request a quote.

Product facts

WHO IT IS FOR

Technopark and R&D centre companies, certified public accountants, payroll teams

ACCESS

On-premises agent (planned)

SETUP

Same agent as the Pre-Close Data Check

COMPATIBILITY

Logo payroll (Tiger/j-HR) and accounting data

LICENCE

In development
